Summer School Course Descriptions for First Grade

Fun & Fitness- Mrs. Easker

Students will be involved in a variety of activities and games to promote fitness and to develop better gross motor and coordination skills as well as learning to work cooperatively with others as a team. Students should wear gym shoes – no flip flops

Super Hero - Mrs. Zblewski

Here we come to save the day! Come and fly with me as we go through the alphabet like superheroes! We will fight villains along the way by enjoying letter and number games, word building & letter identification with hands on activities, crafts and fun.

Ahoy Matey! - Mrs. Zblewski

Have some fun and sail along on an adventure with math, reading & writing. We will be making learning fun by playing games, reading stories and making sea adventurous crafts!

DYI Factory - Mrs. Ruleau

This cours is a fun way for your child to explore their creative side while building self esteem knowing they hold the power to create things on their own. We will explore how to make many popular items such as slime as well as incorporate items found around the house and in nature. We look forward to seeing you there!

Yoga Rascals & Relaxation - Mrs. King

Get ready to embark on a yoga adventure. Students will learn numerous yoga poses, play fun yoga games, listen to yoga stories, and enjoy some arts and crafts all geared toward mindfulness and relaxation. Bring a yoga mat if you have one and wear comfortable clothes.

Literacy Camp - Mrs. Sorano, Mrs. Berndt, Mrs. King, Mrs. Jensen

Calling all Campers! This year at summer school your child has a chance to join the Summer Lit Camp. We'll start and end the session with a gathering "campfire"- no matches required- to help campers get to know each other as readers and friends. The daily lessons include songs, a read aloud, independent reading time, movement and creative expression. The LitCamp model is built on the 7 strengths of *belonging, friendship, kindness, curiosity, confidence, courage and hope*. Sign your child up for this rich literacy experience to help boost their confidence and social skills while building reading skills. We invite families to join us any time throughout the summer session

Battle of the Board Games - Mrs. Ruleau

This course is an exciting way for your child to learn the importance of following directions/rules while building friendships as they use teamwork to finish the game. If you're looking to help your child win this summer, this is the class for them!

Water Exploration

Class will focus mainly on the Standard Red Cross curriculum that is currently being used in our "learn to swim" classes. We will also include plenty of organized games, free time, and related water activities for those of appropriate age.

LEVELS AVAILABLE AT THIS TIME ARE: READINESS, LEVEL 1 AND LEVEL 2 (Please indicate which level your child is in on the registration form)

Readiness: For children 5 years old: Entry level class that will teach the basic fundamentals.

Level 1: Children 6 and up: floating, gliding, initiation of arm and leg action to propel along with water safety.

Level 2: For children who have mastered Level 1: Lengthier floats, arm and leg action to produce directed swimming, treading water and water safety.

Math Games - Ms Malluege

Math games is a fun and exciting way to visit math concepts in the summer. We will do things such as measuring, math puzzles, clock games and more exciting activities to get students thinking of math as fun.

Scratch Jr. Coding - Mrs. Mallak

In this class you will learn how to program your own interactive stories and games on the computer. By snapping together bits of code on the computer, you can make characters move, jump, dance, and sing. You will learn to solve problems, design projects, and express yourself creatively on the computer. With Scratch Jr., you won't just learn to code, you will code to learn.

Computer Fun - Mrs. Mallak

In this class you will be exploring online games, apps, and other web based activities. We will work on a variety of websites and use online resources to create cool projects!

Brain Breaks & Zumba Fun - Mrs. Brandt

Get ready to get moving! Students will be able to participate in Zumba dance routines for kids. They will get moving and dancing to fun songs and zumba music from around the world. Through movement students learn about self regulation and how movement helps us to be ready to learn. Come join us for some fun movement and dancing activities!
