

2022/2023 Scholarship Announcement

To: Technical Education Coordinator/Instructor or Guidance Professional

The Society of Manufacturing Engineers (SME), Rib Mountain Chapter 264, has announced a scholarship opportunity for students seeking a technical career in the manufacturing sector. This is a great opportunity for both traditional and returning students continuing their education in either a 2- or 4-year Institution.

The Mission and Vision of SME supports the ongoing development of working Technical/Engineering professionals in the manufacturing sector. This Scholarship is based on the same premise. For more information see [Home - SME Connect](#)

The organization is funding two \$500.00 scholarships: (1) 2-year center track, and (1) 4-year center track. Meeting the qualification status, the monetary allocation will be made direct to the institution and ear marked for the awarded individual.

This opportunity is open to candidates: within a 60-mile radius of the Wausau metro area, good standing student status, has a vested/relevant career path. The application process should be completed online at: <https://forms.gle/qsZ9pDCXvVGdxHjG7>

The awarded scholarships will be announced May 28th, 2022. Thank you for your support/promotion for suitable student applicants.

Respectfully,

Kevin Thiel

Co-chair SME Chapter #264
