

Construction Weekly Update

Week of October 28, 2019

Wittenberg Birnamwood Schools

Wall forming at Birnamwood Addition

Forming and wall prep for a Friday wall pour

High School storm sewer system

Demo to make ready for foundations

Update

Foundation walls at the Birnamwood addition were poured Friday. Next week will consist of stripping wall forms, and then followed with backfill of those walls and the installation of the storm and sanitary utilities.

Wittenberg Elementary will see foundation work with forming and pouring of footings and walls.

At the High School we will be completing the site prep and running the utilities from the existing building to the Environmental Science building. We are expecting a delivery of reinforcing steel later in the week so footing excavation will start to get the concrete crew in.

About Hoffman

Hoffman Planning, Design & Construction, Inc. is an integrated Total Project Management firm based in Appleton, Wisconsin. We partner with our clients to create innovative designs and build high quality, functional, attractive, energy efficient facilities at costs at or below projects delivered using traditional design and construction methods. Currently in our fifth generation of leadership, Hoffman continues to deliver the same expert service and superior value our clients have come to appreciate.
