

District Newsletter – June 2017

Dear Wittenberg-Birnamwood District Residents,

With the close of another successful school year, I would like to extend a sincere thanks to our two retirees, Barb Morrison and Jeff Stoddard. Barb taught Special Education for 15 years at the High School and Jeff is retiring as Middle School Social Studies teacher at Birnamwood after giving 28 years of service to the Wittenberg-Birnamwood School District. Both Barb and Jeff have given so much of their time and energy to educating, supporting and mentoring hundreds of students during their tenure with the Chargers. Thank you for making a positive difference in the lives of so many!

With the school year ending, so has another very successful extra-curricular season here at WB! The boys baseball team capped off an 11-3 conference season, winning the CWC conference championship outright. And for the first time ever, the girls track team brought home the team championship from Lacrosse! They are the #1 Division 2 team in the entire state! It is no secret that the result of their success is the dedication they have made to being the best they can be. This same sentiment applies to the 7 Valedictorians we had in the Class of 2017, the nearly 40 high honor students in the same class, and the craftsmanship exhibited in this year's Retrospect show. Having a passion for something, working hard to be great at it, and persisting through the obstacles that present themselves all factor in the end result.

I could not be more proud of this district and the staff and students that continue to strive to make this the best place and experience possible. We certainly encounter our share of obstacles along the way, but in the end, I really believe that the parents, residents and taxpayers of our little district have a whole lot to be proud of. Wishing you all a safe and enjoyable summer!

Sincerely,
Garrett Rogowski
