

JR MACHINE CNC SCHOLARSHIP OPPORTUNITY

A career-launching program for students interested in advanced manufacturing and CNC machining.

What the Scholarship Includes:

- Upfront paid tuition for NWTC CNC Machining Program
- Part time paid work at JR Machine
- Hands-on machining experience with state-of-the-art equipment
- Clear path to a long-term skilled manufacturing career
- Opportunity to work on aerospace and space exploration components

Eligibility Criteria:

- Must enroll in the NWTC CNC Machining Program
- Ability to work part time while attending school
- Commitment to **2 years full-time employment** after program completion
- Strong work ethic, professionalism, and interest in manufacturing

JR Machine manufactures precision components used in space and space exploration. We are offering a unique scholarship for students who want to train in CNC machining while gaining hands-on experience in a high-tech manufacturing environment. This scholarship covers up to full tuition at NWTC while you work part time at JR Machine and build real-world skills.

Application Process

- Email your resume and a brief interest statement to **bkellner@jrmachine.com**
- We will contact you to schedule an interview and tour
- Selected students can receive partial or fully paid tuition while working part time, with a guaranteed full-time job placement after completion
- **Deadline to Apply: April 15**
- **Phone/Text: 715-923-4615**
